Parts Catalog Introduction

PARTS CATALOG INTRODUCTION

This parts catalog lists parts and sub-assemblies provided as service parts.

When it becomes necessary to replace parts, always use KAWASAKI GENUINE PARTS which have passed strict inspection which guarantees quality and performance.

1. HOW TO ORDER PARTS

- 1) When ordering the parts, be sure to use the parts catalog corresponding to the product code. Check the product revision codes on the product and the catalog.

Product Code (example) : FA130D-AA00

Product Revision Code

- 2) Specify the part code (all digits) exactly as listed in this catalog on your parts order.
- 3) The parts not shown in the illustrations of this catalog are not sold separately; only the complete units or next higher assemblies illustrated are supplied as the service parts.

2. EXPLANATION OF PARTS CATALOG FORMAT

This catalog covers: FB460V -- S09

GRID NO. B-3

This grid covers: Cylinder/Crankcase

1) Product Code

This code describes the product code covered by this catalog. The product revision code, which is a part of the product code, is omitted.

2) Part Group Title

This title is the representative name for the group of parts illustrated on the page.

3) Reference Number

The reference numbers are shown on the illustration and the list as the link between them.

4) Part Number

This is the key of your parts ordering.

Three kinds of part number are used in this catalog.

a. Structure 1

Part Revision Code

b. Structure 2

Color Code for Painted Part

c. Standard Hardware Number

(for bolts, nuts, washer, or the like)

Size Code

Material and Surface Treatment Code

Item Code

5) Description and Additional Information

The part name, the location, the size, and the serial number as additional information, etc., are described here. Use them to find out and check the part required.

When a part number is changed without change of the product revision code and the changed parts are not interchangeable, the serial number of the product is noted as follows;

(FA130-100001) : Affected units are from beginning of the product of the product code up to and including this serial number.

(FA130-100002 -) : Affected units are from this serial number and above.

(FA130-100002 - FA130-110001) : Affected units are in this serial number range.

6) Quantity

The figure shows quantity of the part required at the indicated position on the illustration and for the specified product revision code.

The asterisk (*) on this column means the part can be used as the substitute on the product and is supplied until the stock is exhausted.

Note: Some small parts will be supplied by units.

Example: If six (6) bolts are ordered and the minimum quantity per unit is five (5), two (2) units of the bolt will be delivered.

7) Product Revision Code

This code indicates an important change which affects the service parts interchangeability.

3. ABBREVIATIONS
